Dear Educator,

**Treasure Bay is the leading source of books for classroom libraries to help support family engagement and Title I programs.** Research has consistently shown that ongoing parent involvement results in significant gains in students' reading achievement, and over 10,000 schools and 4,000 Title I programs rely on Treasure Bay for the best research-based resources to engage parents and students in reading together.

Treasure Bay provides resources that make it simple and easy for parents to get involved and be successful in helping their children. The results: dramatic increases in family engagement, improved reading scores, and former struggling and reluctant readers who have been transformed into avid readers. (For research data, see page 5. Also, please see the reviews and comments from educators throughout the catalog.)

We now have 14 series and over 400 titles available for students from Pre-K through 5th grade. Schools usually provide sets of our books for classroom libraries, and teachers send the books home to engage students and parents in reading together. # The #1 Series for Family Engagement in Reading

- Dramatically increases parent involvement in reading
- Significantly improves reading scores (see page 5)
- Particularly effective with reluctant and struggling readers
- Used by over 10,000 schools and over 4,000 Title I programs
- 62 titles in fiction and nonfiction for grades Pre-K through 4
- Helps meet numerous Common Core standards, including fluency requirements

The **We Both Read** books are so highly effective because they engage both children and parents in reading—and make it easy for them to be successful. The concept of the series is simple: each book is specially formatted for a parent and child to take turns reading aloud alternate pages. The parent's pages feature higher-level text (at about a 5th-grade reading level), while the child's pages feature text that matches the child's reading level.

This shared experience reduces the frustrations of beginning and struggling readers—and makes reading fun! Children get to practice reading at their skill level and they also have the opportunity to relax and listen as the fluent reading of more complex text is modeled for them. The result is increased comprehension, fluency, and support for their decoding skills, along with increased enthusiasm for reading.

Most schools provide sets of the books for classroom libraries, with teachers sending appropriate levels of books home on a lending basis. However, some schools provide these books to students and parents to help supplement or begin a home library. Plus, **We Both Read** has proven to be just as effective when used in the classroom for RTI programs, as well as for tutored-reading and buddy-reading programs.

### Winner of Numerous Awards!

## Research Results: Using We Both Read

**Almost Triple the Increase in DIBELS Fluency Scores Confirmed by Independent Research**

A large independent research study in four states has confirmed the effectiveness of the **We Both Read** series in improving fluency and reading scores. The study compared use of **We Both Read** for at-home reading versus other materials used by schools, including basal readers, leveled readers, and trade books. Among participants (reading at least 30 minutes per week with their parents), the use of the **We Both Read** series resulted in significantly greater improvement in their DIBELS oral reading fluency score.

Compared to participants using other at-home reading materials, the participants using *the We Both Read series scored almost triple the increase in fluency improvement*. The study also showed that use of the **We Both Read** series resulted in more independent reading time and significantly improved children's attitudes about reading. Plus, 100% of the teachers participating in the study reported that the paired reading format of the series proved to be a significant factor in increasing at-home reading time.

SCHOOL LIBRARY JOURNAL (STARRED REVIEW)

By Mary Ann Hoberman, Children's Poet Laureate

## Paired Reading for Fun & Easy Family Engagement! (Also Perfect for Reading Tutors and Reading Buddies)

These books are all Common Core aligned and are specifically designed for a pair of readers to take turns reading. (Each book contains 8 to 12 humorous stories.)

The books have received numerous awards and accolades from educators and librarians around the country. Very Short Stories to Read Together was a 2002 ALA Notable Book for Children. Very Short Fairy Tales was a 2004 Gryphon Award Honor Book and a 2005 NCTE Notable Book for Children in the Language Arts. And in 2008, the author, Mary Ann Hoberman, was named Children's Poet Laureate.
