TREASURE BAY

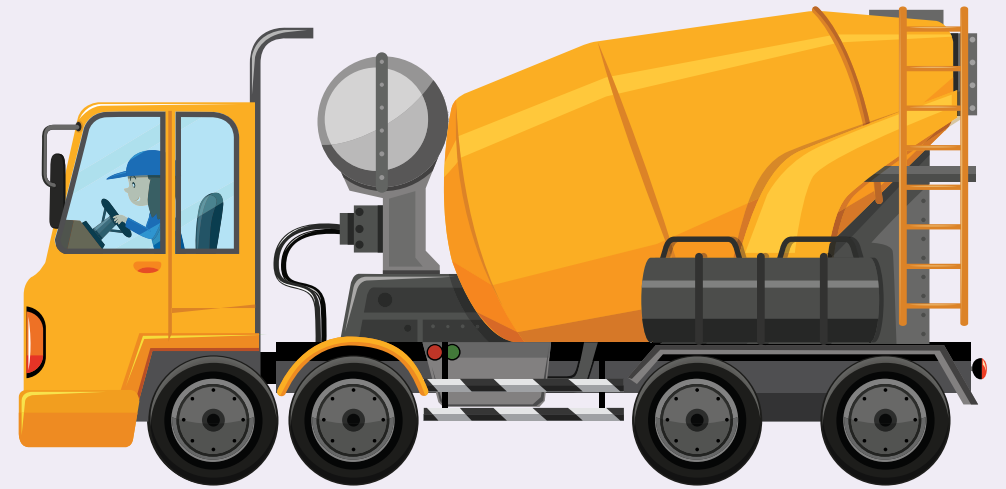

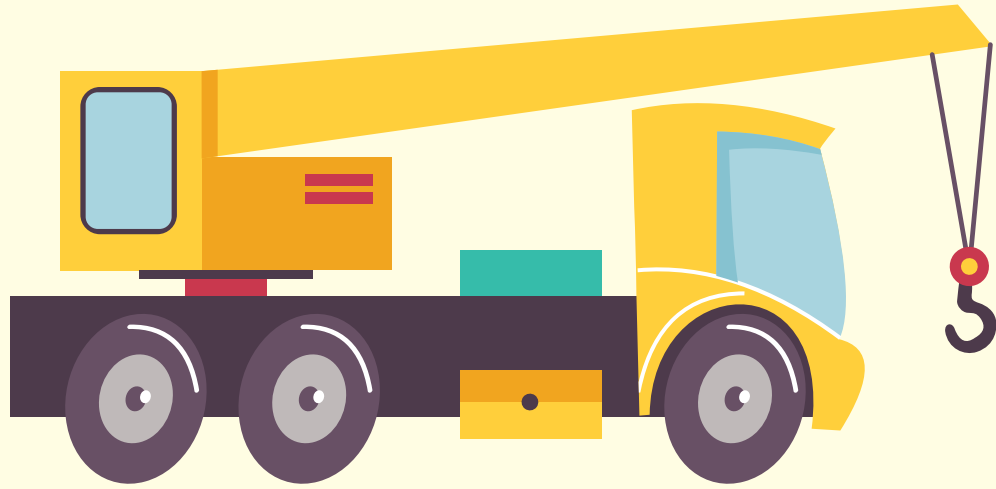

- **What** do you want to be when you grow up? Maybe you'd like to be a doctor. Or you could be a car mechanic. **What** about a homemaker? There are so many choices!

Think about the things you enjoy doing right now. One of those things could turn into a job you love when you grow up.

★ **What** do you like to do?

- Maybe you **would** like digging and pretending that you're at the wheel of a crane or a powerful bulldozer. Cranes and bulldozers are often used when a house is being built.

★ Which one **would** you like to drive? You could drive both!

- It takes a lot of people to **build** a house. An architect makes a drawing of what the house will look like. Then construction workers **build** it. Once the outside is built, work begins on the inside. Painters paint walls. Carpenters put in floors. Plumbers put in pipes for water.

- ★ Maybe you would like to help **build** a house when you grow up.

- If you like cats, dogs, and turtles, you might someday grow up to be a veterinarian. A veterinarian is a doctor for animals.
A veterinarian looks in an animal's ears and listens to its heart to be sure it is healthy. They may have to give it a shot to make it feel **better**.

★ A hug can also make a pet feel **better**.
